WHY BUY **Spacesaver**[®] / **CSM**[®] ?

Because we understand storage. We meet your challenges of limited floor space, budget constraints, and future expansion with a full line of innovative storage, filing, and material handling equipment. California Space Management, Inc. has over 1000 successful project completions throughout Southern California. 30 years and counting...

Our mission is doing what's best for you... PERIOD!

- **A Spacesaver / CSM representative will visit your facility to measure spaces and carefully listen to your requirements.** We are committed to maximizing storage capacity at the lowest cost.
- A site specific floor plan layout and elevation with storage capacity is supplied to you - at no charge or obligation.
- Unmatched manufacturing efficiency and our class B general contractor license insures turnkey solutions at the lowest costs available.

Let Spacesaver/CSM solve your unique storage challenges!

SPACESAVER® HIGH DENSITY MOBILE STORAGE - AN OVERVIEW

Build the foundation for an efficient, productive office with a Spacesaver high-density storage system. Our systems optimize space and can substantially increase capacity of filing or storage in an existing area or free up space for other uses.

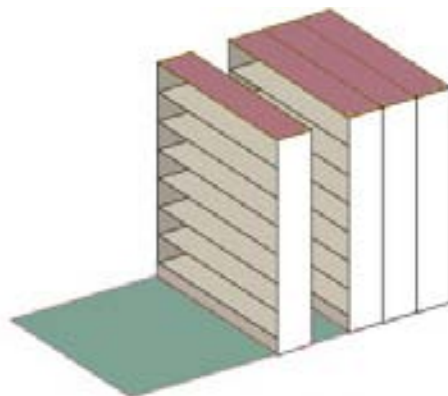

ONE SIMPLE CONCEPT WILL:

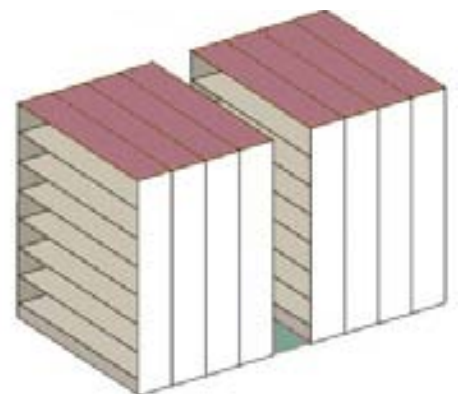

- Dramatically increase storage capacity and speed up access to critical files and other stored materials
- Minimize or eliminate off-site storage
- Increase security over confidential information through controls allowing secure access
- Make room for additional staff or equipment
- Improve organization, productivity, and customer service

Conventional type storage:
wasted space

Free up half your space for
other uses...

Or store twice as much in the
same amount of space

Storage That Works!

SPACESAVER® MOBILE STORAGE SYSTEMS - TYPES

Spacesaver Mobile Storage gives you significantly greater storage capacity per square foot of floor space. Conventional shelving or cabinets are mounted on carriages that travel on rails. Non-productive fixed aisle space is eliminated!

Spacesaver Mobile Systems are custom designed to fit your space and integrate seamlessly into any work environment. Three basic modes of operation are available:

POWERED

- Users open system aisles at the push of a button or via computerized commands
- Designed for maximum productivity for high access storage/filing
- State of the art engineering and safety systems
- Programmable security and controlled access for specific users

MECHANICAL ASSIST

- Users open system aisles by rotating ergonomic drive handles
- Allows lengths of up to 60 foot carriages with effortless movement
- End panel design options include steel, laminate, and/or real wood
- Standard safety features are fully code compliant

MANUAL

- Users open system aisles by pushing handles left or right
- Ideal for low activity, small storage or filing applications

Storage Your Way

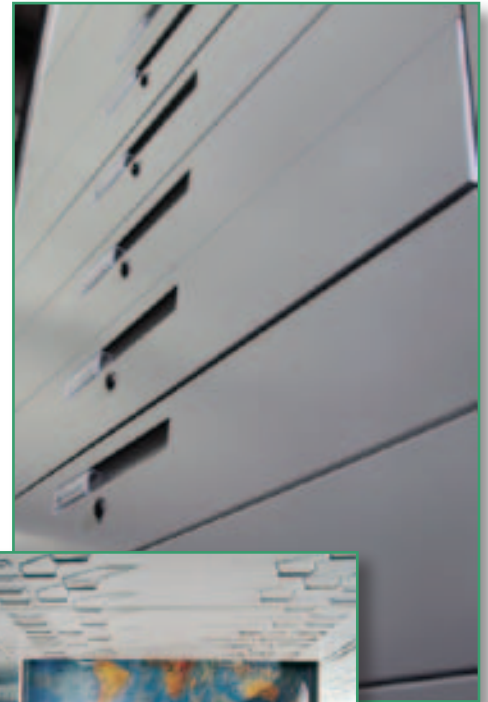

SPACESAVER® MOBILE SYSTEMS - ACCESSORIES

Spacesaver Mobile Storage Systems will be configured for your unique application. The modular design allows for flat/file shelves lateral roll-outs, mixed media drawers or custom engineered accessories. Choose from an array of components to store virtually anything!

APPLICATIONS

- File Folders
- Boxes
- Binders
- Books
- Medical Records / X-Rays
- Digital Media
- Museum Artifacts
- Supplies
- Medical Supplies
- Industrial Equipment
- Weapons
- Pharmaceuticals
- Lab Specimens
- Linens
- Food
- Inventories

Our focus is on practical solutions to save space, increase productivity, and reduce operating costs. As each project has a goal of 100% customer satisfaction, our expanding list of clients in diverse industries is always available for your information and confidence.

Unlimited Shelving Options

SPACESAVER® STATIC SHELVING - AN OVERVIEW

Whether you need a few sections for a storeroom, or the project requires “miles of aisles,” California Space Management, Inc. can help. All types of Spacesaver shelving are available. The key to “getting it right” is a no-obligation survey by a California Space Management, Inc. representative at your facility.

FACTORS IN SHELVING SELECTION

1. The Application - What media (file folders, books, boxes, etc.) is being stored and what are the aesthetic needs for the location
2. The Media - What are the dimensions/weights of the items, and what shelf clearance is required
3. The Location - The room dimensions, staff accessibility and building code will affect the “best solution”

Call us at **800-873-1707** for a free consultation

SPACESAVER® STATIC SHELVING - TYPES

Spacesaver offers a variety of shelving styles to meet any storage requirement. Stationary or free-standing shelving is available, standard or custom configured in steel/wood laminate combinations. All styles are available in varying depths and heights.

4-Post Shelving is our most widely used style offering strength, rigidity, and a smart front office look. It is economical and has a wide range of accessories.

Case-Type Shelving is ideal for upscale offices and libraries. Its distinguishing feature is double wall uprights offering a clean smooth finish without exposed connections.

Library Cantilever Shelving offers a classic look and a flexible design to accommodate books, periodicals, and reference shelves. Laminate or real wood end panels add a rich finished look.

Wide Span Shelving is the perfect selection when tough, high weight capacity (2,400 lb./shelf) is needed. Pans of up to eight feet long by four feet deep per section mean fewer posts to obstruct access to your materials. Heights of up to 21 feet mean efficient use of your valuable space.

Wire Shelving

CHROME WIRE SHELVING

Unlike other wire shelving on the market, our wire shelving is certified by National Sanitation Foundation International. High quality chrome finish is very attractive and durable. Open wire construction reduces dust build-up, allows free light and air circulation, increases sprinkler effectiveness and improves visibility. Fast and easy to assemble. No tools required for assembly. Each shelf is adjustable in 1" increments. Units priced with 4 shelves and available in 63", 74" and 86" heights.

CHROME PLATED CARTS

Chrome Plated Mobile Carts

These mobile wire carts are constructed to the highest quality standards and feature rust resistant chrome plating. Carts are highly maneuverable and come standard with 5" diameter swivel locking caster wheels. Fast and easy to assemble. No special tools are required. Shelves are fully adjustable in 1" increments. Cart capacity: 600 lbs. Available in 69" and 80" high mobile units that include 4 shelves.

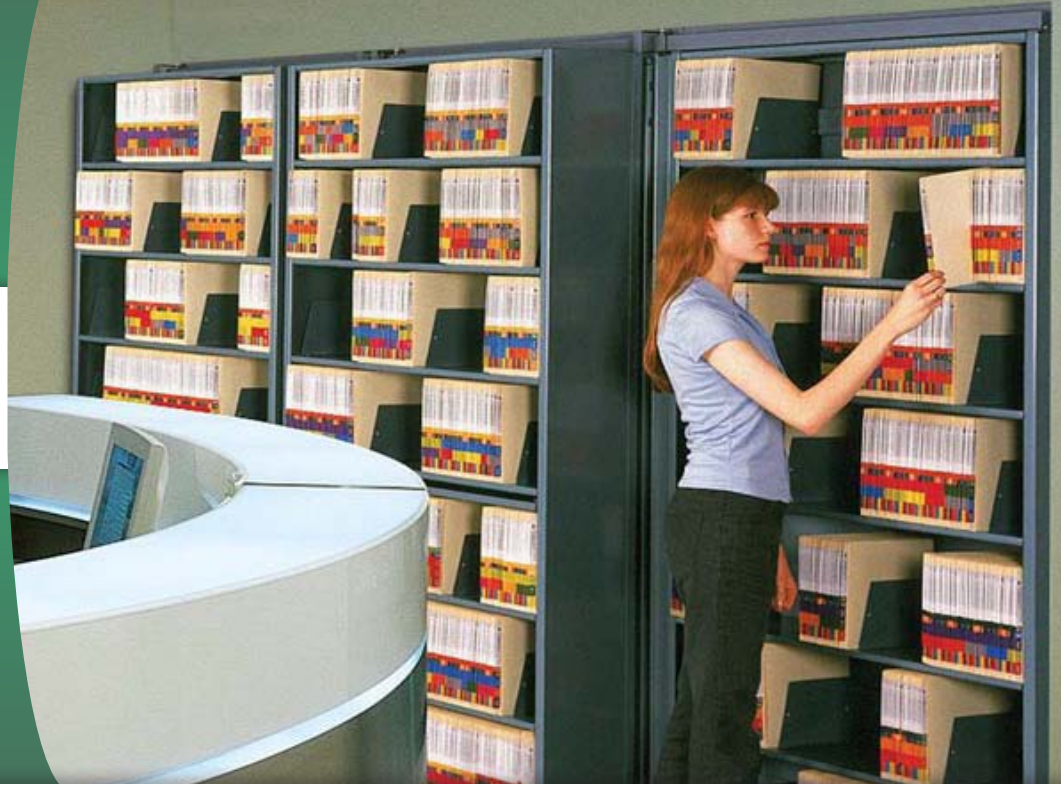

Chrome Plated Service Carts

Highly functional service carts that are available in 2 or 3 shelf configurations. Carts are 38½" high with a capacity of 600 lbs.

Kennestone Hospital | Marietta, GA

Slide Open More Storage

SPACESAVER® MODULAR BI-FILE

Modular Bi-File maximizes filing and storage in minimal space. The concept is simple. Two rows of filing equipment placed in nearly the same footprint where there was once only one. The front shelf sections rest on movable carriages that travel back and forth. This movement allows access to the back row of stationary shelving. The result is a high-efficiency storage system that dramatically increases storage capacity over lateral files within a specific area.

ADVANTAGES

- Great capacity booster for smaller filing areas
- Increase your storage capacity by more than 60%
- Quick and easy way to gain space

Optional overhead anti-tip provides added stability

Standard in-rail anti-tip on levelable rail provides stability and durability

Optional locking hinged doors provide security

Timeless Simplicity

SPACESAVER® ROTARY STORAGE

Between shared workstations, along corridors & aisles, as room dividers, rotary file cabinets double your storage capacity with an aesthetically pleasing and highly secure design.

KEY BENEFITS

- The dual-sided rotary design gives you fast and easy access from one or both sides of the unit
- Dramatic storage capacity through double depth design and up to eight levels of file storage
- Multimedia storage accommodates letter or legal, top tab, roll-out drawers or general storage
- Locks for secure storage

A Smarter Way To Store

SPACESAVER® CABINETS

Spacesaver cabinets are offered in a range of industry standard sizes and styles and can be custom designed to meet specific storage needs. Spacesaver provides a wide selection of steel or wood bookcases, fireproof cabinets, and can fabricate custom sizes per specification. Locking security option ensures HIPPA privacy compliance.

FEATURES INCLUDE:

- Front-to-back or side-to-side filing
- Interchangeable components and flexible drawer layouts
- Heavy gauge, reinforced steel and welded construction
- Cabinets are configured on 1½" centers
- CD, DVD, video tape, and data cartridge sized drawers
- Custom cabinet fabrication

Many of our customers would welcome the opportunity to show you how their Spacesaver systems work for them. There is no better way to evaluate a potential supplier's performance prospects than talking directly to their customers.

Vertical Storage

MODULA®

Modula® by System Logistics is the vertical storing system with drawers representing the ideal solution for handling, storage, and fast picking of components, semi-processed products and finished products in various companies. The Modula vertical storing system has been designed to optimize the covered area and the picking working speed; it is formed by an entirely modular structure that fully covers the room height, up to 14 metres.

FEATURES

- Outside, inside and double picking bay to dramatically increase picking speeds
- Features a powerful touch screen console
- Works with computer processing systems for the integrated management and control of automatic storing systems
- Formed by an entirely modular structure that fully covers the room height, up to 14 metres

A Place For Everything

SPACESAVER® INDUSTRIAL STORAGE

Unlike the traditional static storage concept, mobilized storage systems require just one moving aisle that opens and closes only where and when needed to provide full accessibility to all materials for quick, safe retrieval.

KEY BENEFITS

- Create up to 100% more space for racking or shelving units, in the same footprint
- Free up as much as 50% of your existing storage space for revenue-generating activities without expanding into new space
- Strategically store and organize necessary supplies and materials close to your employees, so they can work more efficiently

Call us at **800-873-1707** for a free consultation

A photograph showing a worker on a mobile high-bay storage system in a warehouse. The worker is positioned on a platform, reaching into a high bay of storage racks. The racks are filled with boxes, and the system is illuminated by overhead lights. The background shows the structural elements of the warehouse, including steel beams and a high ceiling.

High Efficiency

SPACESAVER® X-Tend™ Mobile High Bay Storage System

An XTend Mobile High-Bay Storage System gives you the same storage capacity as a static high-bay system in less space – or more capacity in the same space. Fitting easily in a smaller building envelope and footprint than other off-site storage options, the XTend system lowers your construction costs substantially. With the lowest life-cycle ownership costs of any other option, XTend systems significantly reduce your operating and energy expenses, too.

OTHER BENEFITS

Exceptionally Safe - From wire-guided pickers for safe, automated retrieval, to proven, patented safety technology and systems, to construction that exceeds the most stringent NARA fire suppression standards, the XTend system is designed and built to protect your personnel and stored materials.

Readily Customizable - XTend systems are specifically tailored by our proven team of professional consultants to meet the unique storage and facility needs of your organization.

Remarkably Reliable - Rigorously tested through 30,000 operating cycles, XTend systems are built with a durability and reliability that can only result from 35 years of proven designs and experience with compact storage and heavy-duty industrial storage systems.

Lockers 101

SPACESAVER® LOCKERS

The variation of locker styles can seem endless! Choosing the “correct” locker can be made simple by having California Space Management, Inc. perform an on-site survey at your facility. The perfect locker for a gym isn’t the same one you’d like to have for a nurse’s area or a sheriff’s station.

BASICS

- How will the lockers be used?
- What performance, durability, and security characteristics matter most?
- How many openings are needed, and what are the dimensions of the items stored?

An on-site survey by a qualified supplier who understands appropriate layout and building code is essential to getting it “right.”

PERFORMANCE

Locker performance begins with a strong frame and door, and can be enhanced depending on the latching mechanism, choice of ventilation, and accessories.

Locker Types

SPACESAVER® Lockers - Types

Freestyle Personal Storage Lockers

Tough and adaptable, Freestyle Personal Storage Lockers can be easily configured to meet your specific storage requirements.

Floor Mounted Gun Lockers

These lockers are ideal for keeping weapons and ammunition out of site for situations that demand extra storage capacity. Can be easily configured to store any combination of handguns, shotguns, and rifles. A virtually limitless number of openings.

Evidence Lockers

Available as both pass-thru and non-pass thru, DSM evidence lockers are specifically designed to provide an extremely secure chain of custody during the critical short-term evidence storage period. Officers can securely deposit evidence day or night without having to deal with keys or combinations.

Refrigerated Lockers

Spacesaver's large and small size DSM refrigerated evidence lockers are specifically engineered to maintain a constant temperature of 38 to 42 degrees Fahrenheit for highly secured and well preserved biological evidence storage.

Sally Port Gun Lockers

These DSM wall-mounted gun lockers provide the utmost in handgun security. There are seven models with up to 10 openings per system.

Modular. Flexible. Durable.

MODULAR CASEWORKS

From storage cabinets to bookcases and closets, modular caseworks solutions have the look of expensive millwork, but are easily reconfigured and expanded. Adjustable shelf and organizing modules are easily integrated with cabinet solutions to meet the specific storage and accessibility requirements of any activity.

KEY BENEFITS

- Quality, concealed hinges are invisible from the outside of the cabinet for a smooth, uninterrupted door aesthetic
- Unique shelving systems provide shelf adjustability in 1" increments
- Shelves feature full width, color-coded labeling for quick, accurate sorting
- Easy-to-install rail-mounted wall cabinets provide precise height and depth adjustment for clean installation and the look of custom millwork

Designed To Be Ready

SPACESAVER® Universal Weapons Rack (UWR)

The UWR storage system is ready to securely store a variety of weapons from rifles to side arms, gear bags to optics, all utilizing the same cabinet frame. This ability to store multiple weapons in one system, and do so without the need to disassemble or zero the weapon is a huge boost to your operational and combat readiness.

FLEXIBILITY

The most flexible weapons security storage system available, the Spacesaver UWR storage system maximizes armory storage space within a compact footprint.

VERSATILITY

Versatile enough to store various combinations of rifles, sidearms and optics, the UWR storage system easily adapts to the changing needs of a transforming military.

TRANSPORTABILITY

Spacesaver's patent pending transport components completely prevent the weapons from movement, vibration, shock and abrasion.

Matched To Your Mission

SPACESAVER® Military Storage Solutions

From the proven, military-certified Universal™ Weapons Rack for storing weapons and optics to the highly modular and adaptable FrameWRX™ Storage System for hospitals and clinics to easily configurable, space-efficient mobile systems to a virtually limitless number of unique storage systems, Spacesaver offers innovative storage solutions that help any unit or section better manage time, space and security.

Sustainable Storage

As your exclusive Spacesaver provider, we at California Space Management, Inc. are proud of our joint commitment to creating sustainable storage solutions, and recognize the importance of respecting the environment and preserving resources for future generations.

Spacesaver's efforts include:

SUSTAINABLE DESIGN

Spacesaver products contain an average of 75% recycled steel, integrate alternative materials, & can be reconfigured and reused.

INTERNAL WASTE MANAGEMENT

Spacesaver Corporation has executed various waste management and reduction activities to protect both human health and the local environment.

ENERGY CONSERVATION

In 2007, Spacesaver received the Wisconsin State Award for Energy Use Reduction. This honor continues to propel the company to adopt more innovative and effective energy conservation strategies.

NATURAL RESOURCES ACTIONS

Spacesaver takes precautions both locally and globally to preserve the availability of natural resources for future generations.

Our Business Process

California Space Management, Inc. has developed and operates within a fully integrated process. This guarantees a seamless transition from your existing equipment to a new storage solution. Your project will receive exacting and individual design, including:

- Needs analysis by listening carefully to your requirements, including an on-site survey, without cost or obligation
- A firm quotation/proposal with exact costs and detailed specifications
- Auto-CAD design of layout, elevation, and storage capacity
- Structural calculations by a State Licensed Engineer ensuring safety and code compliance
- Conduct site visits to view similar equipment applications
- Seismic installation and warehousing
- Complete training and ongoing support services

SPACESAVER'S CONTRACTS

Below are our available contract purchasing programs for local and federal government, schools and universities and/or health care institutions.

National Contracts

A member owned cooperative, serving all public, non-public educational systems, governmental agencies and non-profits

Government Contracts

U.S. General Services Administration.

For Universal Weapon Racks and Components.

Indefinite Delivery / Indefinite Quantity. For Universal Weapon Racks and Components.

SMALL DISADVANTAGED GOALS

Single source procurement through Alaskan Native 8 (a) Company.

GPO Contracts

A leading national healthcare group purchasing organization (GPO).

A leading healthcare supply contracting company.

One of the nation's largest supply chain management companies for the healthcare industry.

Mid-Atlantic Group Network of Shared Services. Serving health care providers around the country.

Premier Healthcare Alliance. Serving more than 2,500 U.S. hospitals and 76,000-plus other healthcare sites.

Our singular focus on Storage Systems - from initial concept to project completion - provides our clients unmatched competency in architectural constraints, workflow, and system design. California Space Management, Inc. is committed to excellence and has the references to prove it.
